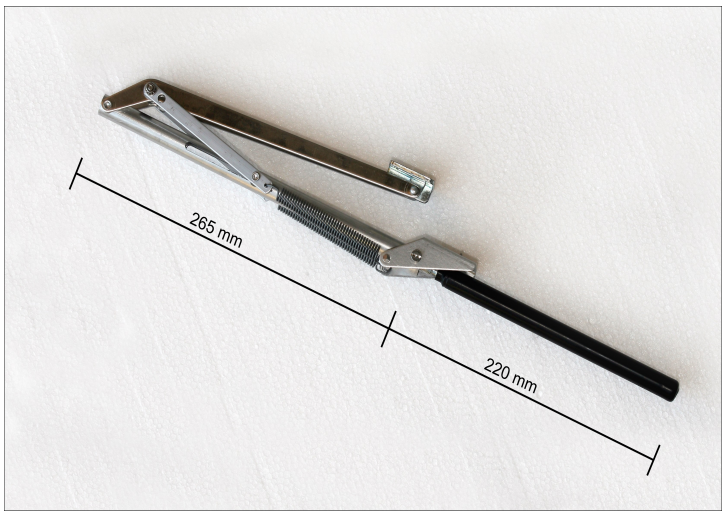
Environmentally friendly

due to working by the use of natures own materials : expands +retracts by heating +cooling of wax, which consists of plant oils
(= harmless to humans even if licked, as opposed to electricity failures)

Openers for roof and vertical vents

Lifting power	max 7 kg / 15 Lbs = Max. Weight of hinged vent 14 kg / 32 Lbs
Max. opening	approx. 40 cm (= 16”)
Min. spring hold	for closed vent 0.6 kg + vent pressure
Starting vent opening	adjustable to any temperature between 17 and 25°C

Optivent



OPTIVENT

Made of natural aluminium
Special: suitable for dusty and most surroundings, as the piston rod is enclosed
EAN number : 5 701972 517170

Options for 1)

Extra strong closing springs,
Lifting power max. 6.5 kg / 14 Lbs = Max. Weight of hinged vent 13 kg / 29 Lbs
Min. spring hold for closed vent: 0.9 kg + vent pressure

2)

Extra-extra strong closing springs,
Lifting power max. 6.0 kg / 13 Lbs = Max. Weight of hinged vent 12 kg / 27 Lbs
Min. spring hold for closed vent: 1.2 kg + vent pressure

These spring types may be purchased upon application to us!
