

Scandinavian quality
= reliable / durable

VENTILATION non-electric

Working 24 hours/day
at no costs

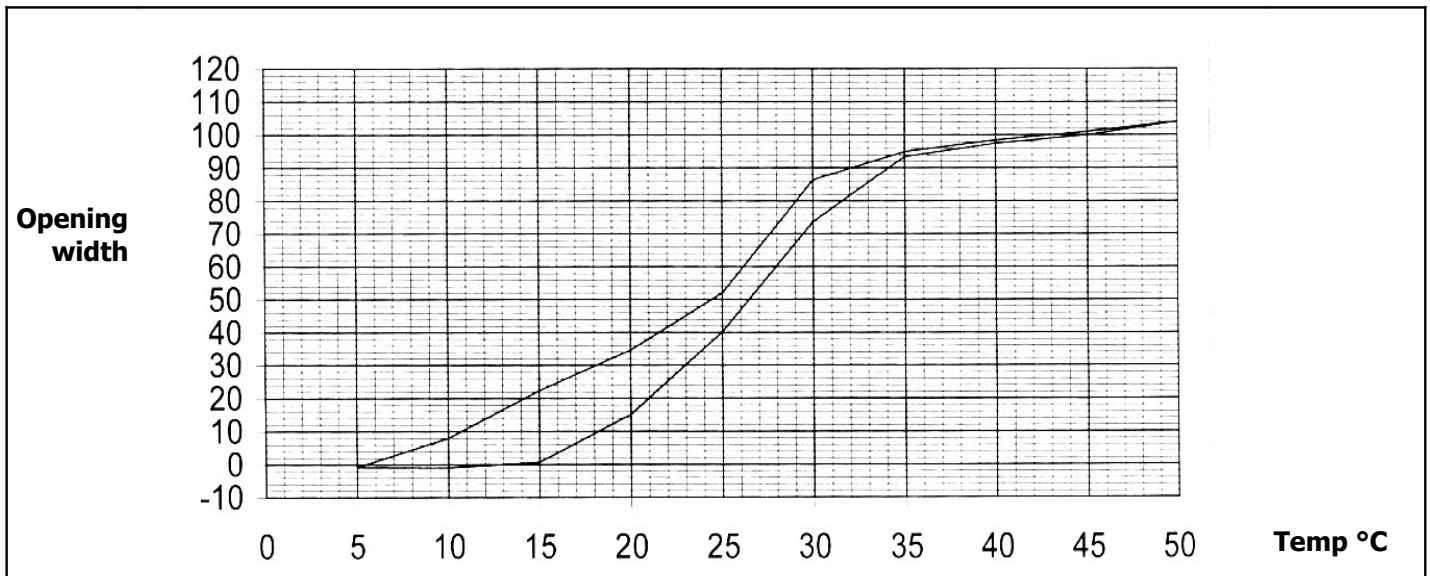

Environmentally friendly

due to working by the use of nature's own materials : expands + retracts by heating + cooling of wax, which consists of plant oils
(= harmless to humans even if licked, as opposed to electricity failures)

14

STANDARD WAX

in a GIGA cylinder

Movements has been tested at 100 kg load.
Reduction of load = -1 mm / 10 Kg.

0 is defined as stroke length = 0. At this point the piston rod extends 15 mm out of the cylinder tube.
The cylinder has been under stable temperature conditions for 6 hours at each point of measurement.
